

INVICTUS

Education Trust

IT Support

- Manage the trust-wide computer network, with aims of 100% uptime
- Our team of specialist technicians and network managers provide round the clock, one-to-one support to our staff and students
- Provide fast, reliable Internet access for our schools, and access to copious educational resources
- Procure, install, and manage all computer hardware, getting excellent value by purchasing as a trust
- Develop specialised software for our schools, including a custom virtual learning environment
- Manage remote learning facilities, including laptops to those students in need, a virtual learning platform, and remotely accessible resources
- Keep all data and facilities secure, protecting our staff and students from online harm
- Develop a strategy for IT usage, tailored for each school, in collaboration with our school colleagues
